Author Index to Volume 95

Abad, P.L. and V. Aggarwal, Incorporating transport cost in the lot size and pricing decisions with downward sloping demand 95 (2005) 297
Aggarwal, V., see Abad, P.L. 95 (2005) 297
Atwater, J.B., see Chakravorty, S.S. 95 (2005) 347

Badell, M., J. Romero and L. Puigjaner, Optimal budget and cash flows during retrofitting periods in batch chemical process industries 95 (2005) 359
Bareil, C., see Tchokogué, A. 95 (2005) 151
Betts, J.M. and R.B. Johnston, Just-in-time component replenishment decisions for assemble-to-order manufacturing under capital constraint and stochastic demand 95 (2004) 51

Cao, D. and M. Chen, A mixed integer programming model for a two line CONWIP-based production and assembly system 95 (2005) 317
Chakravorty, S.S. and J.B. Atwater, The impact of free goods on the performance of drum-buffer-rope scheduling systems 95 (2005) 347
Chan, F.T.S., H.C.W. Lau, R.W.L. Ip, H.K. Chan and S. Kong, Implementation of total productive maintenance: A case study 95 (2004) 71
Chan, H.K., see Chan, F.T.S. 95 (2004) 71
Chen, H.M., see Chiu, H.N. 95 (2005) 179
Chen, M., see Cao, D. 95 (2005) 317
Chen, S.K., P. Mangiameli and C.J. Roethlein, Predicting the output of a tube-bending process: A case study 95 (2005) 307
Chiu, H.N. and H.M. Chen, An optimal algorithm for solving the dynamic lot-sizing model with learning and forgetting in setups and production 95 (2005) 179
Chung, K.-J., S.K. Goyal and Y.-F. Huang, The optimal inventory policies under permissible delay in payments depending on the ordering quantity 95 (2005) 203
Cochran, J.K. and A.M. Uribe, A set covering formulation for agile capacity planning within supply chains 95 (2005) 139
Costa, A.F.B. and M.S. De Magalhães, Economic design of two-stage $\bar{X}$ charts: The Markov chain approach 95 (2004) 9

da Silveira, G.J.C., Improving trade-offs in manufacturing: Method and illustration 95 (2004) 27
Daniel III, C., A note on some prominent defective applications of neoclassical production theory 95 (2004) 21
David, I., Letter to the editor 95 (2004) 135
De Magalhães, M.S., see Costa, A.F.B. 95 (2004) 9
Demeester, L.L. and M. Qi, Managing learning resources for consecutive product generations 95 (2005) 265
Duguay, C.R., see Tchokogué, A. 95 (2005) 151

doi:10.1016/S0925-5273(04)00381-0

Fleisch, E. and C. Tellkamp, Inventory inaccuracy and supply chain performance: a simulation study of a retail supply chain 95 (2005) 373

Ghosh, D., D.K. Sharma and D.M. Mattison, Goal programming formulation in nutrient management for rice production in West Bengal 95 (2004) 1
Giri, B.C. and W.Y. Yun, Optimal lot sizing for an unreliable production system under partial backlogging and at most two failures in a production cycle 95 (2005) 229
Goyal, S.K., see Hoque, M.A. 95 (2005) 195
Goyal, S.K., see Chung, K.-J. 95 (2005) 203
Gutierrez, M.A., see Villalobos, J.R. 95 (2004) 109

Homburg, C., Using relative profits as an alternative to activity-based costing 95 (2005) 387
Hoque, M.A. and S.K. Goyal, On lot streaming in multistage production systems 95 (2005) 195
Huang, Y.-F., see Chung, K.-J. 95 (2005) 203

Ip, R.W.L., see Chan, F.T.S. 95 (2004) 71

Johnston, R.B., see Betts, J.M. 95 (2004) 51
